PHILOSOPHY IN AKWESASNE: An Educational Lecture & Discussion Series

Workshop Facilitated by Dr. Carlos Fraenkel
of McGill University Department of Philosophy
& Dr. Adam Etinson of Université de Montréal

In our day to day lives, we rarely have a chance to take a step back and think about the things that are important to us. Traditionally philosophy was a tool used to help us think through our issues. Philosophy is the study of the idea of existence, knowledge, and awareness of the world we are in and that surrounds us. During these sessions, we will discuss the issues and how philosophy applies to them.

Wednesday September 28, 2011

Community & Culture

Wednesday October 12, 2011
