COMMUNITY HEALTH ANNOUNCES PRE-REGISTRATION FOR COVID-19 VACCINE

The Department of Health's (DOH) Community Health Program is announcing pre-registration for the COVID-19 vaccine for community members living, working, or attending school in the northern portion of Akwesasne. The DOH will be receiving the Moderna COVID-19 vaccine within the next week. Initial roll out will be for our long-term care facilities: residents, staff, and frontline workers. Community clinics will be established in the coming weeks.

If you are interested in receiving the Moderna COVID-19 vaccine, please call the Mohawk Council of Akwesasne's (MCA) Emergency Operations Center (EOC) to pre-register at 613-575-5005, 613-575-2331, or you can email to pre-register at eoc@akwesasne.ca. Leave your name, date of birth, phone number and age.

The Community Health Program will reach out to schedule your appointment to receive the vaccine. As more doses of the vaccine become available, more community members will be contacted to schedule receiving the vaccine.

We do not have an anticipated date for the community vaccine clinic as of this announcement.
